

MUSKET'S SCAVENGER HUNT

ALL ABOUT NUMBERS

Calling all math fans! Ask a family member to help you collect and record your answers.

- Two forks and one spoon. How many items do you have?
- Three books and two markers. How many items do you have? Take two markers away. How many items do you have left?
- Count the number of Flying WVs in your house.
- Pick your favorite book and name three characters in it.
- Find one quarter, one nickel and one dime. How much money do you have?
- Something that has four sides.
- Find six crayons. Take your two least favorite colors away. How many do you have left?
- Count the number of Mountaineer fans you know.
- Something in your house that has a number printed on it higher than 30.
- Something in your house with a price on it.
- Count how many chairs you have at your dinner table. How many chair legs are there around the table?
- Find five LEGOS that are all different.
- How many trees are in your front yard?
- Take a 20-minute walk around your neighborhood with a family member. Or, take a slow walk around your house and look for things you've never noticed before.
- Count the number of steps to your mailbox.
